To Whom It May Concern,

I am writing to introduce my online portfolio, which highlights my skills, achievements, and professional experiences. As an aspiring professional in Computer Programming and Analysis with a background in sales, I have designed this portfolio to showcase my academic projects, technical skills, and career goals.

In particular, my capstone project "Eventify" demonstrates my ability to design and develop interactive web applications using Node.js, Express.js, and MongoDB. Additionally, my experience as a Restaurant Supervisor has strengthened my leadership, teamwork, and communication skills.

I invite you to explore my portfolio to learn more about my qualifications and achievements. Please feel free to contact me if you have any questions or would like to discuss my work further.

Thank you for your time and consideration.

Sincerely,

Sara Eisazadeh
